

Ready for PrEP?

Get started.

What if there were a pill
that could help prevent HIV?

There is.

Ask your doctor if PrEP is right for you.

Pre-exposure prophylaxis: A daily pill to reduce risk of HIV infection

www.cdc.gov/hiv/basics/prep.html

Washington University Infectious Diseases Clinic

now offers care for persons who are interested
in taking **PrEP** to prevent HIV infection.

When taken every day, **PrEP** provides a high level of protection against HIV,
especially when combined with condoms.

Call to schedule a PrEP appointment

@ WU Infectious Diseases Clinic

314-362-9098

Limited financial help may be available to support access to
PrEP appointments and medications for uninsured persons.
