TARGET AUDIENCE

This course is directed to infectious diseases physicians, pediatricians, public health specialists, infection control specialists, epidemiologists, and those who oversee infection control programs.

LEARNING OBJECTIVES

Upon completion of this educational activity, participants should be able to:

- review recently approved antibiotics and their clinical use, and
- identify products in the pipeline for new drugs awaiting FDA submission and their potential for clinical utility.

CONTACT

If you have any questions please call or e-mail Susan Wightman at (314) 454-8215 or wightman.susan@wustl.edu.

ACCREDITATION

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Missouri State Medical Association through the joint sponsorship of the St. Louis STD/HIV Prevention Training Center and the ID Society of St. Louis. The St. Louis STD/HIV Prevention Training Center is accredited by the MSMA to provide continuing medical education for physicians.

DESIGNATION

The St. Louis STD/HIV Prevention Training Center is accredited by the MSMA to provide continuing medical education for physicians. The St. Louis STD/HIV Prevention Training Center designates this educational activity for 1 Category 1 credits toward the AMA Physician's Recognition Award™.
